REPORT

The Department of Economics in collaboration with the Internal Quality Assurance Cell conducted a 32 hours Short-Term Course on “Financial Modelling” from 4th February 2022 to 27th March 2022. Ms. Divya Jain, Assistant professor, Delhi Institute of Advanced Studies, GGIPU was the resource person for the course. The students enrolled for the course were from different colleges and across various streams. The objective of the course was to create Financial Models that are used by the organization for various reasons like tracking the company’s performance, forecasting, and budgeting, risk analysis, and evaluation, etc. The course covered all the aspects of basic and advanced excel functions required to build a financial model and hand-on training was given to build various models like Discounted Cash Flow model, and Three Statement based financial model with forecasting and future projections. These skills acquainted students with the job prospects of financial modeling in Equity Research, Investment Banking, Credit Ranking Analysis, Financial Analysis, Business Analysis, Project Finance, Fund Management, etc. The students were evaluated on a continuous basis through quizzes, assignments, and tests. Thorough practice with case studies helped them to understand the applicability of the concepts. The students were also required to prepare a financial model on real-time data of the company and the presentations were given in the class. The feedback of the students showed that it was a great learning experience for them and exploring the subject in the practical scenario.
